OWNER SAYS

“COMPLETE DISPERSAL”

“I just want to tell my Shorthorn friends that the decision to disperse the herd has been one of the hardest I’ve ever had to make. However, we have to face realities, and my health in recent months has not been good enough to allow me to give the herd the attention it deserves. Consequently, this will be a complete dispersal, with absolutely no reservations.

We like to think that our cattle are practical. In fact, our whole breeding program has been aimed in that direction. If a cow didn’t milk, or hadn’t enough of the growth factor, or lacked general quality, we didn’t want her around the place.

Among the bulls used, the imported BANTASKIN TOP-NOTCHER, weighing a ton at three years, did a good job for us. Then we were fortunate in having the use of the imported CRUGLETON BAYARD, that produced champions in the Lasby herd. (Also a Queen’s Guineas winner at the Royal).

Through the years, we have done quite a bit of performance testing of our young bulls, with satisfactory results. Our herd is Type Classified . . . healthy and sound.

The farm has been in the family since 1844, and Shorthorns have been bred on the farm since 1902.

We regret that we can no longer carry on. We sincerely believe that these cattle will be ambassadors of good will for the Shorthorn breed as they go into their new homes.”

J. Fraser McFarlane.
